

POLICY

INTEGRATED MANAGEMENT SYSTEM

The primary objective of our organization is to be a reliable and responsible manufacturer of die forgings for the automotive industry, meeting customer requirements and expectations, ensuring continuous improvement while taking into account environmental protection and safe working conditions.

We accomplish this primary objective by providing:

- ▶ high and stable quality of manufactured forgings,
- ▶ continuous improvement of the Integrated Management System, with particular emphasis on a friendly environment and safe working conditions,
- ▶ pollution prevention through environmental aspect management and selective waste management,
- ▶ prevention of accidents at work, occupational diseases and near misses,
- ▶ strive for continuous improvement in occupational health and safety,
- ▶ increase employee awareness and satisfaction through involvement and participation in processes and enabling skills upgrades, that take into account the roles of employees and their involvement in health and safety at work
- ▶ timely delivery as required by existing processes within the organization and at the customer,
- ▶ adequate resources and means to implement health and safety and environmental policies,
- ▶ systematic optimization of quality costs,
- ▶ compliance with legal and other requirements applicable to our business.

The goals set for the whole organization are realized through an interdisciplinary process approach based on the implemented Integrated Management System according to the requirements of the Quality ISO 9001: 2015, IATF 16949:2016 Quality Management Standard and standards: PN - EN ISO 14001: 2015, PN - ISO 45001: 2018.

Satisfaction of our customers

It is a measure of the quality of our products and services
